INFRASTRUCTURE SOLUTIONS, NOT BOXES

PivIT Global provides IT infrastructure, hardware maintenance services, and IT services to its network of customers spanning 160+ countries around the world. PivIT focuses on crafting custom solutions to meet clients' unique and changing needs; offering advantageous pricing, unmatched customer service and support and a full-lifecycle approach to offerings from hardware, maintenance and IT services.

Stocking over \$100m in inventory of both new and legacy hardware including all major OEMs such as Cisco, Dell, EMC, HP, Juniper, and Arista. Whether you're relocating and refreshing a data center or adding just a few endpoints to your networks' edge, PivIT Global has a solution to meet your unique needs on time and under budget.

We understand that today's network architectures must address and handle a complex array of technical and business environments with ever-changing demands. PivIT Global stocks more than \$100-million in hardware inventory. We can respond to purchase planning and shipment requests with immediate and consistent results. Our infrastructure inventory features comprehensive hardware offerings from OEMs such as the following:
